

MANDY BOURSICOT ATELIER

SUMMER 2019  
WEEKEND WORKSHOP  
DRAWING HAIR

## DRAWING HAIR

JULY 20 & 21 / SATURDAY 10-5 & SUNDAY 10-1  
\$210 FOR 9 HOUR WORKSHOP

*The ability to draw hair* is indispensable to creating a natural-looking portrait. The way a person wears their hair both frames the face physically, and reveals that model's personality and character, whether intentionally or not. How the artist depicts that hair can add volumes to the narrative of the portrait, and can also be a point of pride in how skillful the artist really is. Conversely, poorly drawn hair can be the downfall of a well-executed portrait.

In this 9-hour workshop, students will be taken through a comprehensive set of exercises that will de-mystify what might seem like the most confusing part of the human form to draw. Starting with a new vision of how to see and understand hair as a single unit, and how light acts on hair to reveal the complexity of its nature, the workshop will cover different colours of hair, including blonde, brunette and very dark hair, as well as straight, wavy, and curly hair. And we will look at short cropped hair, long hair and hassled hair.

This is a workshop that will definitely add to your skills and will take your figure drawing and portrait drawing to the next level. *Beginners and experienced artists are all welcome.*
